

### Project information

Project type:	Intelligent metering
Address:	Kolstadflata Saupstad 2009
End construction year:	Apartment buildings
Building type:	481
Units:	3-4
Floors:	-
Persons in building:	38 199 m <sup>2</sup>
Gross area BTA:	38 199 m <sup>2</sup>
Net heated area:	
Additional cost for eco-application:	€/m <sup>2</sup>
Total building cost:	€/m <sup>2</sup>

### Special ECO-technologies used:

- Intelligent measurement

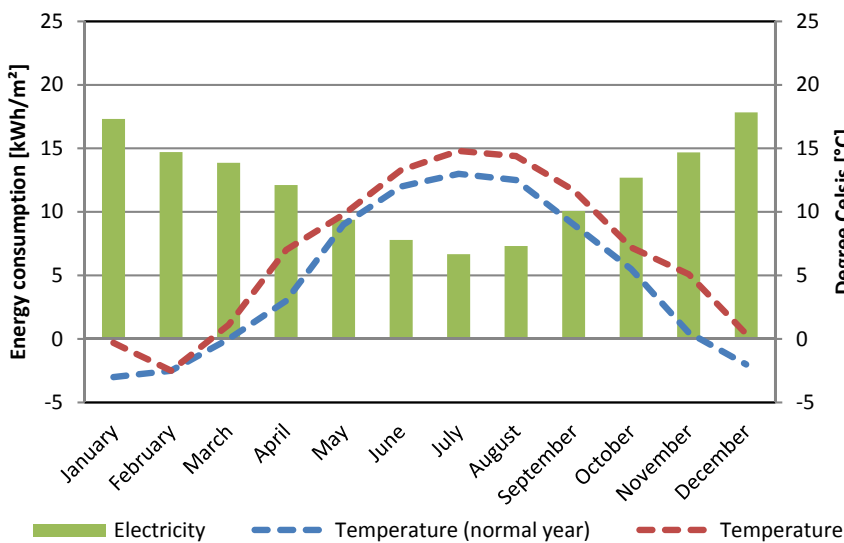

### COMMENT:

- The houses have undergone rehabilitation.
- Rehabilitation is not included in the ECO-City project.
- The project includes only the installation of intelligent metering of electricity

## Energy consumption

Energy Consumption 2011

### ENERGY

[kWh/m <sup>2</sup> ]	Before rehab	Actual 2011
<b>Heat</b>	152	144.5
space heating	62	
ventilation	50	
pipe loss	10	
DHW	30	
<b>Electricity</b>	58	0.0
lighting	24	
cooling	0	
equipment	7	
other	27	
<b>Total</b>	210	144.5
