

Project information

Project type:	Eco rehabilitation
Address:	Strandveien 29. og 33. 7042 Trondheim
End construction year:	2012
Building type:	Cultural building
Floors:	2
Gross area BTA:	2135 m ²
Net heated area:	1839 m ²
Window/door area:	199 m ²
Additional cost for eco-application:	0 €/m ²
Total building cost:	n.a.

This demonstration is no longer part of ECO-City:

Because of lack of funding and complexity of ownership the Cultural/Commercial buildings in the City Ecological Experimental Area (Svartlamoen) were taken out of the ECO-City project.

There has been some financing through the Municipality (with strict guidelines on what was expected from them). They have therefore been able to refurbish some of the property, but this has been without input or guidance from the ECO-City project.

The property has so far been developed/used for:

- Kindergarten
- Concert scene/hall
- Practice facility for musicians
- Secondhand supply store for schools and kindergartens
